WORK EXPERIENCES

School projects

- Web Design Project** (21th Oct 2024 - 05th Nov 2024)
Created and implemented a 'Clinic Services' website interface using HTML, CSS, and SASS.
Role: Front-End developer
- Algorithm Project** (18th Nov 2024 - 28th Nov 2024)
Developed and implemented an 'Email Sending Automation System' using Python and custom algorithms.
Role: Back-End developer
- JavaScript Project** (14th Jan 2025 - 29th Jan 2025)
Created and implemented a dynamic 'Quiz App' frontend with HTML, CSS, and JavaScript.
Role: Web developer
- Virtual Company 1 (VC1) Project** (10th Mar 2025 - 2th Apr 2025)
Designed and developed a full-featured 'Shop Management System' application using HTML, CSS, JavaScript, PHP, MySQL, Bootstrap 5, and various libraries
Role: Web developer
- Virtual Company 2 (VC2) Project** (14th Jul 2025 - 28th Aug 2025)
Developed a Leave Management System using Vue.js, Laravel, React Native and MySQL, implementing dynamic leave types, student authentication, leave request submissions with file uploads, status tracking, and automated notifications.
Role: Web developer

Internship projects

- IT Intern at Cambodia Airports** (01st Sep 2025 - 31th Dec 2025)
During my internship, I worked with MySQL and SQL for data management and analysis, contributed to the customization of the GLPI IT Service Management System, and provided troubleshooting and technical support. I also gained practical experience with Microsoft Fabric, including data pipelines and analytics workflows.

TOOLS

- Figma (Design)
- Git
- Git Hub
- Git Lap
- Visual Studio Code
- Jira
- AI Tools
- Netlify / Vercel
- AWS
- Linux
- Canva
- Swagger API
- Botpress
